I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: My compounded prescription relieves my symptoms and helps me lead a normal life. Some of my friends who use commercially manufactured drugs have all kinds of problems with them. Their commercially manufactured drugs don't fit their needs. My compounded prescription gives me no trouble at all and anyone should be allowed to get them. This is suppose to be a free country.
